2. Risk Score Breakdown

Score weights derived from Logistic Regression coefficients trained on 1000 labeled synthetic cases. Every point is traceable to a specific finding.

Component	Points	Basis
Detector finding	+35	Base score from pattern detection
graph_agent — hub_detected	+10	27 hub account(s) found with 3+ incoming connections
graph_agent — fan_out_detected	+8	28 account(s) sending to 3+ destinations
graph_agent — cycle_detected	+15	97 circular flow(s) detected in subgraph
graph_agent — watchlist_proximity	+15	6 account(s) in subgraph are on the RBI watchlist

6. Investigation Narrative

During routine transaction monitoring, multiple accounts were identified sending amounts clustered just below the ₹10 lakh CTR reporting threshold to a common destination account within a compressed time window, indicative of coordinated structuring activity. The accounts under investigation — ACC_90108882, ACC_59737181, ACC_69961498, ACC_84399083, ACC_48744673 and 90 others — were flagged by the FundDrishti automated detection system with a composite risk score of 100.0/100.

The following anomalies were identified through multi-agent graph analysis: - [graph_agent] 27 hub account(s) found with 3+ incoming connections - [graph_agent] 28 account(s) sending to 3+ destinations - [graph_agent] 97 circular flow(s) detected in subgraph - [graph_agent] 6 account(s) in subgraph are on the RBI watchlist - [profile_agent] Account ACC_11286267 declared as CashBusiness but behaves significantly outside peer group — avg_amount z=45.5, txn_per_day z=2.9, cash_ratio z=2.4 - [profile_agent] Account ACC_13446499 declared as Salaried but behaves significantly outside peer group — avg_amount z=314.9, night_ratio z=3.9, channel_diversity z=2.2 - [profile_agent] Account ACC_22130508 declared as CashBusiness but behaves significantly outside peer group — avg_amount z=31.5, txn_per_day z=2.9, night_ratio z=2.9 - [profile_agent] Account ACC_25014631 declared as Salaried but behaves significantly outside peer group — avg_amount z=327.8, night_ratio z=8.0, channel_diversity z=2.2 - [profile_agent] Account ACC_30534124 declared as CashBusiness but behaves significantly outside peer group — avg_amount z=35.1, night_ratio z=3.6, txn_per_day z=2.9 - [profile_agent] Account ACC_32579937 declared as SmallBusiness but behaves significantly outside peer group — avg_amount z=60.3, cash_ratio z=2.8, txn_per_day z=2.6 - [profile_agent] Account ACC_37732020 declared as Student but behaves significantly outside peer group — avg_amount z=776.2, night_ratio z=30.0, unique_counterparties z=12.0 - [profile_agent] Account ACC_48532662 declared as Student but behaves significantly outside peer group — avg_amount z=553.2, unique_counterparties z=16.0, night_ratio z=12.8 - [profile_agent] Account ACC_49385195 declared as Student but behaves significantly outside peer group — avg_amount z=638.8, night_ratio z=16.1, unique_counterparties z=12.0 - [profile_agent] Account ACC_56113741 declared as Student but behaves significantly outside peer group — avg_amount z=605.6, night_ratio z=22.2, unique_counterparties z=20.7 - [profile_agent] Account ACC_59737181 declared as SmallBusiness but behaves significantly outside peer group — avg_amount z=59.1, night_ratio z=5.6, txn_per_day z=2.6 - [profile_agent] Account ACC_61998170 declared as Salaried but behaves significantly outside peer group — avg_amount z=255.1, night_ratio z=16.5, channel_diversity z=2.2 - [profile_agent] Account ACC_64280720 declared as Salaried but behaves significantly outside peer group — avg_amount z=238.1, night_ratio z=16.0, unique_counterparties z=2.9 - [profile_agent] Account ACC_66581473 declared as Salaried but behaves significantly outside peer group — avg_amount z=373.8, night_ratio z=13.6, unique_counterparties z=2.2 - [profile_agent] Account ACC_69959826 declared as Salaried but behaves significantly

Based on the above findings, the transaction activity associated with the identified accounts is assessed as suspicious and inconsistent with normal banking behavior. The pattern is consistent with known money laundering typologies as outlined in FATF guidance and RBI AML directives.

This report is being filed in accordance with the Prevention of Money Laundering Act (PMLA), 2002 and the reporting obligations under FIU-IND guidelines. The reporting entity recommends further investigation and account-level scrutiny by the competent authority.
